La chromothérapie

La chromothérapie, nouveau concept de thérapie d'harmonisation de corps et d'esprit se base sur des stimulations énergétiques générées à travers les couleurs.

Chaque couleur nous transmet différentes sensations, et par conséquent elles ont la capacité d'influer sur nos émotions, notre état d'âme et notre bien-être psychique. C'est ce que nous appelons la psychologie de la couleur.

Nous incorporons un nouveau système de lumières dans nos têtes de douches les plus sophistiquées. Elles sont disponibles dans une ample gamme de tonalités que vous pouvez choisir durant votre session de chromothérapie. En fonction de la gamme de la couleur que vous choisissiez selon vos goûts et nécessités du moment, les bénéfices de votre session varient.
