TERMOTECH

CR 

NM 

Características Técnicas

- Cartucho termostático con Sistema Hot Block de seguridad antiquemaduras y Sistema Termostop de bloqueo de la temperatura a 38°C.
- Montura ceràmica 1/2" para regulación de caudal.
- Distribuidor de 2 vias con regulación de caudal y cierre.
- Caudal 3 bares: rociador 12 l/min, teleducha 12 l/min. Nivel acústico a 3 bar: < 20 dB.
- Cromado latón: 15 micras de espesor de níquel, 0.3 micras de cromo.
- Prestaciones de confort a nivel de fidelidad, sensibilidad y constancia en la selección de la temperatura.
- Resiste presiones estáticas ≤ 10 bar y golpes de ariete de 25 bar.
- Temperatura recomendada de agua caliente 55°C. Temperatura máxima de uso 65°C. Máximo 1h a 90°C.
- Presión de uso entre 1-5 bar. Recomendada 3 bar.
- Resistente al choque térmico y químico anti legionela.
- Ánodo de sacrificio anticorrosión de zinc-magnesio.

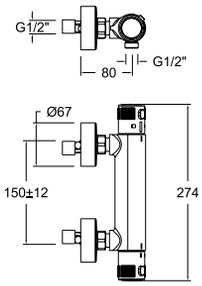

Technical Characteristics

- Thermostatic cartridge with Hot Block anti-burn system and Termostop temperature blocking system at 38°C.
- Ceramic valve 1/2" for flow regulation.
- 2-way diverter, with flow regulation and cut-off system.
- Flow rate at 3 bar: Shower 12 l/min. Bath 12 l/min.
- Acoustic level at 3 bars: < 20 dB.
- Chrome-plated brass: 15 microns thick of nickel, 0.3 microns of chrome.
- Comfortable performance as regards reliability, sensitivity and steadiness in the temperature selection.
- It resists static pressures ≤ 10 bars and water hammers at 25 bars.
- Recommended temperature for the hot water: 55°C. Maximum working temperature: 65°C. Maximum: 1h at 90°C.
- Working pressure between 1-5 bars, recommended: 3 bars.
- Resistant to thermal shock and chemical anti legionella.
- Zinc-magnesium anti-corrosion sacrificial anode.

MONOTECH

Nuestro sistema patentado monocontrol es sinónimo de innovación, versatilidad y confort, diseñado por nuestro departamento de I+D, siendo un gran logro tecnológico de **ramonsoler**.

Una de las características más destacadas de este revolucionario sistema es su cartucho mezclador de agua fría y caliente que, además, es intercambiable en todos los cuerpos de grifería termostática de **ramonsoler**. Esta funcionalidad permite una transformación sencilla y rápida del sistema termostático al sistema monocontrol.

Our patented monocontrol system is synonymous with innovation, versatility and comfort, designed by our I+D department, being a great technological achievement of ramonsoler.

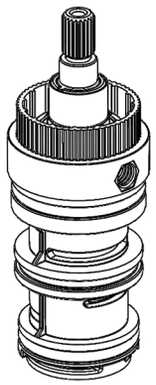

One of the most outstanding features of this revolutionary system is its hot and cold water mixing cartridge, is interchangeable in all **ramonsoler** thermostatic faucet bodies. This functionality allows a simple and fast transformation from thermostatic to monocontrol system.

CARTUCHO MEZCLADOR DE AGUA FRÍA Y CALIENTE
HOT AND COLD WATER MIXING CARTRIDGE

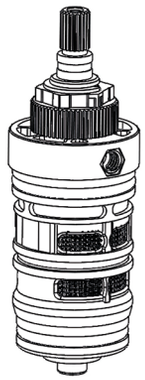

El sistema monocontrol se enfoca en la facilidad de uso y, a su vez, incorpora una avanzada tecnología antical, diseñada específicamente para prevenir la acumulación de calcio y otros depósitos minerales.

The monocontrol system focuses on ease of use while incorporating advanced anti-scale technology, specifically designed to prevent the accumulation of calcium and other mineral deposits.

Su cartucho cuenta con un diseño que no requiere filtros, lo que garantiza un funcionamiento fiable y sin complicaciones. Gracias a esta solución, garantizamos un rendimiento duradero y fiable del sistema, incluso en condiciones extremas, como altas diferencias de temperatura y presión en el suministro de agua.

Además, nuestro sistema es completamente funcional en instalaciones que presentan entradas de aguas invertidas. Esto garantiza que los usuarios experimenten siempre el máximo confort de uso, sin importar las particularidades de su instalación.

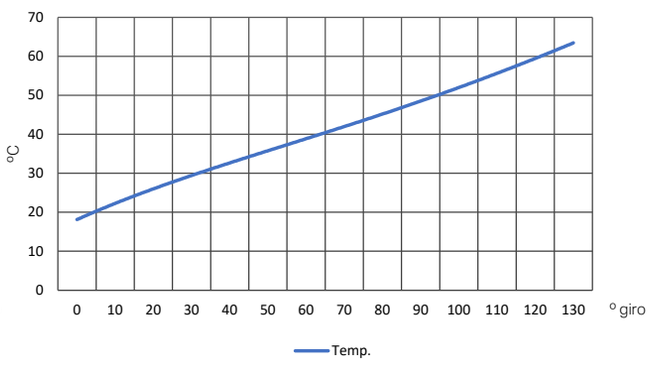

Its cartridge design is filter-free, ensuring reliable and trouble-free operation. Thanks to this solution, we guarantee long-lasting and reliable system performance, even under extreme conditions such as high temperature and pressure differences in the water supply.

In addition, our system is fully functional in installations with inverted water inlets. This ensures that users always experience maximum user comfort, regardless of the particularities of their installation.
