ODISEA JOYA

Odisea Joya présente un design exceptionnel, un corps cylindrique avec une base en forme de jupe et un bec cylindrique et fin, avec une inclinaison unique pour un débit d'eau plus précis et contrôlé. La commande est l'un de ses éléments les plus caractéristiques, grâce à ses dimensions contrôlées et à sa poignée arrondie avec une encoche à son extrémité.

Le corps d'Odisea Joya exprime le mouvement et le dynamisme, des qualités propres à l'architecture contemporaine qui rappellent des œuvres telles que le « Chrysler Building » à Manhattan, de William Van Alen, ou la tour « 30 St Mary Axe » à Londres, de Norman Foster. Un design inspiré de la célèbre série Joya, créée en 1968 par Ramon Soler Roger lui-même, fondateur de Ramon Soler.
